SCIENCE CAN HELP
PEOPLE LIVE LONGER,
MORE PRODUCTIVE LIVES

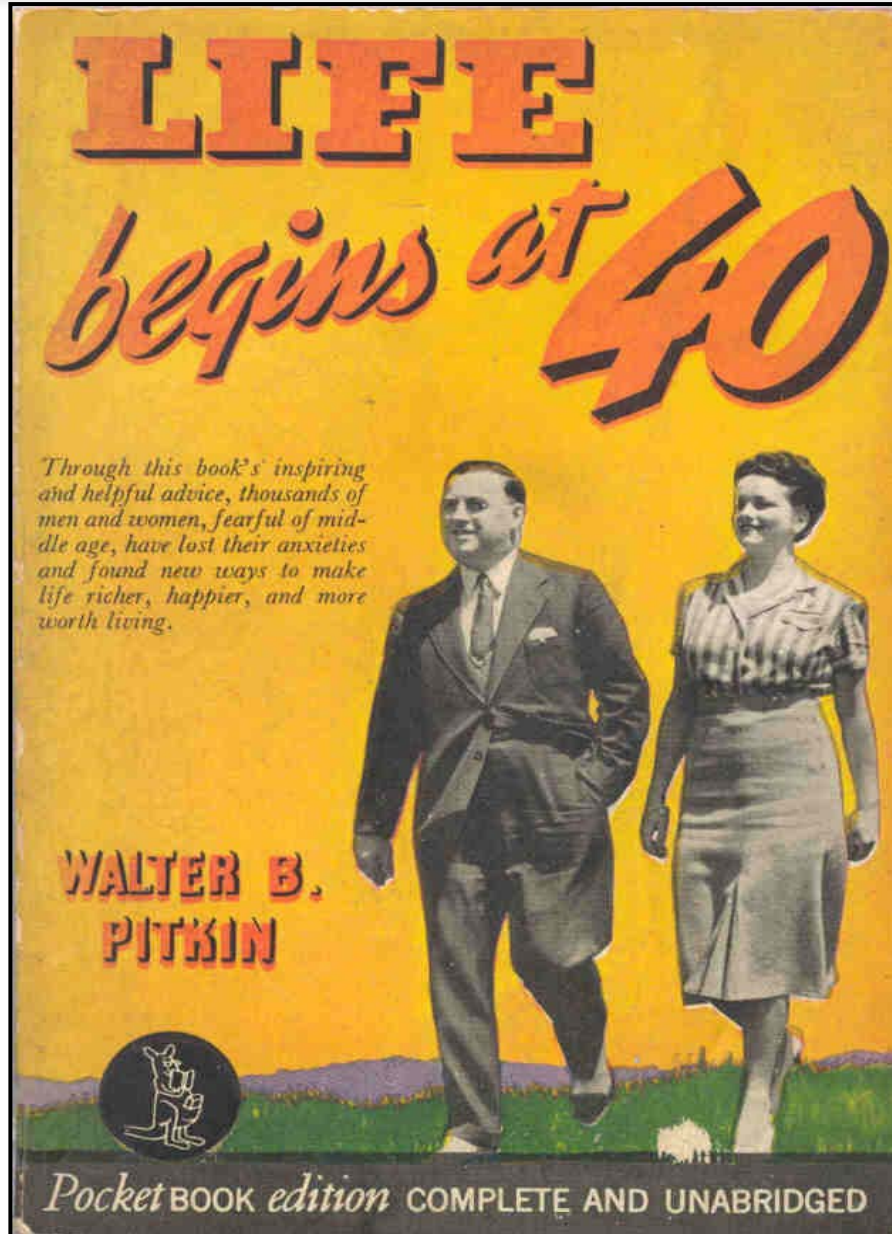

HOW WE ARE

The Alliance for Aging Research is the leading non-profit organization dedicated to accelerating the pace of scientific discoveries and their application in order to vastly improve the universal human experience of aging and health. WWW.AGINGRESEARCH.ORG

U.S. Population 85 and Older: 1900-2050 Census Data and Middle Series Projections

Chronic Disease on the Rise

Advancing Science. Enhancing Lives.

“The nations that learn to tap the productive potential of their aging populations will be those that dominate the century economically, socially and politically.”

Advancing Science. Enhancing Lives.

**Robert D. Hormats
Undersecretary of State**

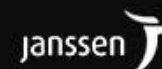

ACT-AD is a coalition of committed national organizations seeking to accelerate the development of potential cures and treatments to slow, halt or reverse the progression of Alzheimer's disease through research.

Advisory Council:

- Alliance for Aging Research (AAR)
- Alzheimer's Foundation of America (AFA)
- American Society on Aging (ASA)
- National Alliance for Caregiving (NAC)
- National Association of Area Agencies on Aging (n4a)
- National Consumers League (NCL)
- Research!America
- Society for Women's Health Research

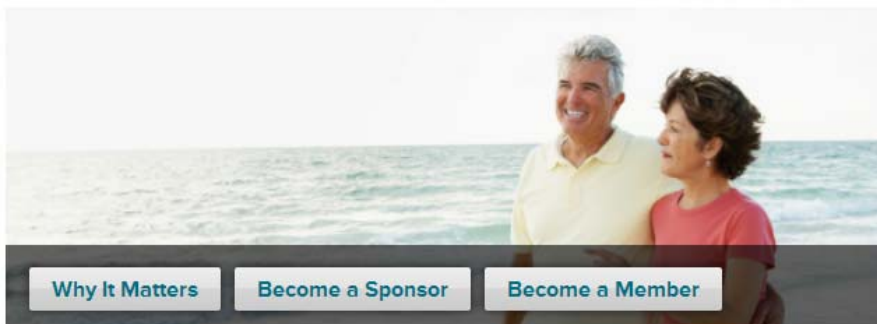

ACT-AD thanks the following sponsors for their support of the coalition

Advancing Science. Enhancing Lives.

WELCOME TO AGING IN MOTION

Aging in Motion (AIM) is a coalition of organizations working to advance research and treatment of sarcopenia and age-related functional decline.
